WORK EXPERIENCE

I have work Hand's on project

During college i have work so many web development hand's on project so I have knowledge of the HTML, CSS, JAVASCRIPT, PHP , MongoDB, Firebase and i work android projects by own experience.

Projects

- **Educational Website**

Based on the educational website I have developed website in the website five section home, about, blogs, Courses , contact form it's a fully responsive to all devices. Skills that I used in this website is HTML, CSS , JAVASCRIPT and Bootstrap icon.

- **Business Website**

To developing business website i have divided into four sections Home, Services, Pricing, Contact and also Follow us section where I display some social media icons.In this website I used HTML, CSS, Javascript, jQuery, Bootstrap to develop this website it's responsive to all the devices mobile /laptop or tablet.

- **News App**

I have also make News Application where the latest News headlines and sub-headlines will display and able to read full news also by clicking on read full news button it will go particular news source website. To develop this website I have used Java, NewsAPI to fetch latest news and display on the app.
